

WAIT TRAINING is excited to partner with PUT YOUR INFO HERE to present a dynamic workshop that will equip and empower you to mobilize and build common ground with your community leaders to help teens avoid drugs, alcohol, sex and other high risk behaviors. We will highlight relationship skills, positive youth development, character building, life skills, conflict resolution, safe dating strategies and marriage preparation education and other essential components of effective programming.

This is a forum answering the questions:

- How did we get here?
- What do teens need to be able to delay sexual debut
- How can we teach effectively to not only change knowledge, attitudes and intent, but also behavior?
 - How do we reduce the drama in an adolescent's life so they can be intentional, awake, alert and aware to make healthy decisions for their lives?
 - What is comprehensive abstinence education?
 - How can we monitor and evaluate our success?
 - What about the teens who are already sexually active or even pregnant and parenting?
 - How can we insure inclusivity to all students?
 - How can parents and caring adults make a positive and powerful impact for the next generation?

If you want to know the answers to these questions or you would like to be trained, this community mobilization and training seminar is a **MUST ATTEND EVENT!!!**

It will be held on **PUT YOUR INFO HERE** @
